RIS offers a Github Enterprise for WashU researchers to utilize for development management.

Requests can be made for a new Github Enterprise Organization, or request the move of an existing organization through the RIS Service Desk.

Request Provisioning or Migration of GitHub Organization

Request New Organization

Go to the Service Desk and click on Research Applications and Services.

Click on Request Provisioning or Migration of GitHub Organization.

Required Information:

Organization name

Email address for at least 2 organization owners

Request Organization Migration

Go to the Service Desk and click on Research Applications and Services.

Click on Request Provisioning or Migration of GitHub Organization.

Required Information:

Existing organization name of which the requester is an owner.

Per GitHub, "Once approved, the organization's ownership and billing will be transferred to Washington University in St. Louis's enterprise account."

GitHub is not approved for confidential, HIPAA, or any protected information.
